

A NEW WAY FORWARD

A BIOREGIONAL GROUNDED ECONOMY *(to eradicate caste)*

Created by Tracey Rogers Brandt
September 2024

CASTE ENABLES TOXIC CULTURE

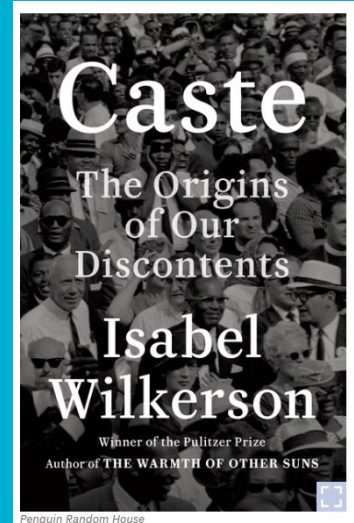

HAVES

CASTE
OTHERING
DISCONNECTION
ABSTRACTION
DOPAMINE ADDICTION
BRAINWASHING
DESENSITIZED HUMANITY

META CRISIS

HAVE NOTS

A NEW WAY FORWARD UNIFIES

Traditional Community Building Organizations

- Community Land Trusts
- Social Justice
- Environmental Justice
- Reparations

Traditional Land Conservation & Environmental Organizations

- Agricultural Land Trusts
- Conservation Easements
- Biodiversity
- Rainforests
- NO Fossil Fuel
- NO PFAS

we ARE nature

WE UNIFY. WE THRIVE!

BIOREGIONAL BELONGING PROGRAMS

Our Generation's NEW DEAL

BIOREGIONAL BELONGING PROGRAMS

PILLARS

Abundance *not scarcity*

Equity *not inequity*

Belonging *not othering*

Sufficiency *not efficiency*

- Ecological community building
- Agroecology
- Bioregional governance with AI enabled infrastructure
- Increased circularity of local food & water supplies
- Novel flows for resources and capitals via a NEW decentralized & unified model

How and where do we begin?

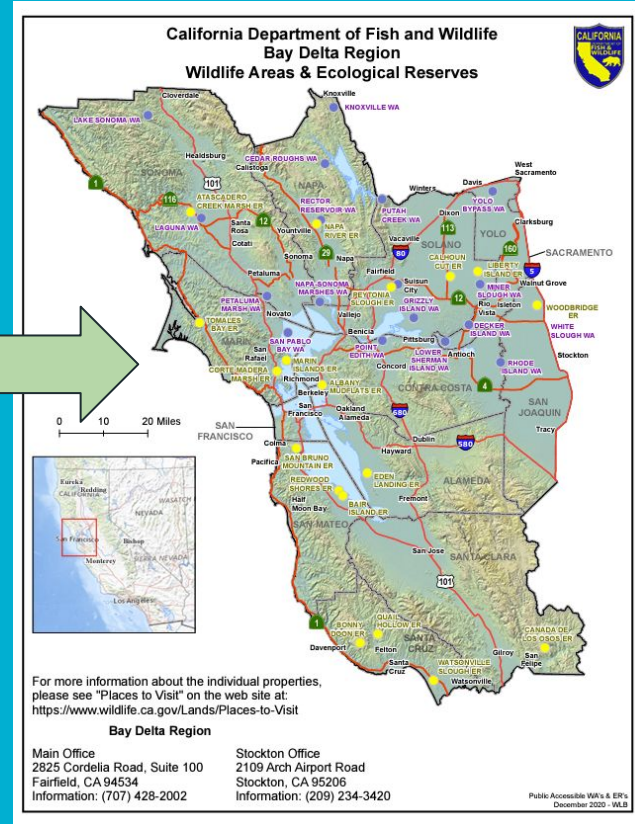

Aligning bioregions to human populations, defined and funded according to geopolitical boundaries, is yet to be perfected.

The California Department of Fish & Wildlife (CDFW) has mapped “bioregions” to geopolitical boundaries, providing opportunity for getting started.

A trial, incubated and led from the California Bay Delta Region, with satellite BBP’s in as many regions and states as funding permits, could begin now!

CDFW REGIONS INCLUDE HUMANS! *

7 CALIFORNIA BIOREGIONS

* One Earth fails to align to geopolitical boundaries like counties & states which are fundamental for transforming urban areas.

BAY DELTA BIOREGION (CDFW REGION #3)

COUNTIES

1. Alameda
2. Contra Costa
3. Marin
4. Napa
5. Sacramento (west of I-5)
6. San Mateo
7. Santa Clara
8. Santa Cruz
9. San Francisco
10. San Joaquin (west of I-5)
11. Solano
12. Sonoma,
13. Yolo (south of I-80)

CITIES OVER 250K

→ Great question!

MSA OVER 50K

→ Great question!

URBAN AREAS OVER 10K

→ Great question!

BIOREGIONAL BELONGING PROGRAMS

- Provide hope
- Grow the spiritual capacity required to imagine a new way forward
- Reconnect neighbors with each other
- Reconnect neighbors with nature, including their being part of nature
- Removes contexts allowing Caste systems
- Provides information & learning
- Enhances & builds skills
- Provides operational support
- Removes barriers
- Provides incentives and impact loops
- Provides pathways to design a new model and a new way of living

CAMPAIGN: JOIN YOUR LOCAL BBP!

- No restrictions, all humans may create a new account.
- Account provisioning introduces BBP novel organizing principles
- Membership is available for humans and entities
- Membership creates an abundance of future pathways of possibility
 - ◆ New flows of resources and capitals within the BBP, and as part of a larger network of BBPs.
 - ◆ A new model for social networking, social media & communication platforms
 - ◆ Tracking actions supportive of your local BBP
 - ◆ Holding value from members' supportive actions with redemption options

BBP: REVIVE YOUR VILLAGE!

- Edible front yard gardens to grow food, wisdom and compassion together
- Community Supported Agriculture (CSA) with Veggie Rx programming
- Pocket forests to hold water and bring more (design and grow the biotic pump)
- Nature based wellness care
- Urban planning with community ecology principles
- Offers & Needs Markets to remove Caste barriers for job seekers
- Land back initiatives & incentives
- Reuse containers for food and beverages w/ container level QR code tracking

BBP OFFERS A NEW WAY FORWARD

UN Sustainable Development Goals (SDG's) have failed to align governments, institutions, private sector and communities to execute the change required.

→ Created in 2015 the 17 SDG's are insufficient to meet the meta crisis

Environmental, Social, and Governance (ESG) standards are criteria that help investors assess a company's sustainability performance. ESG serves as a framework for measuring, standardizing, and implementing specific activities for each business based on the overarching SDGs that the business initially aims to achieve.

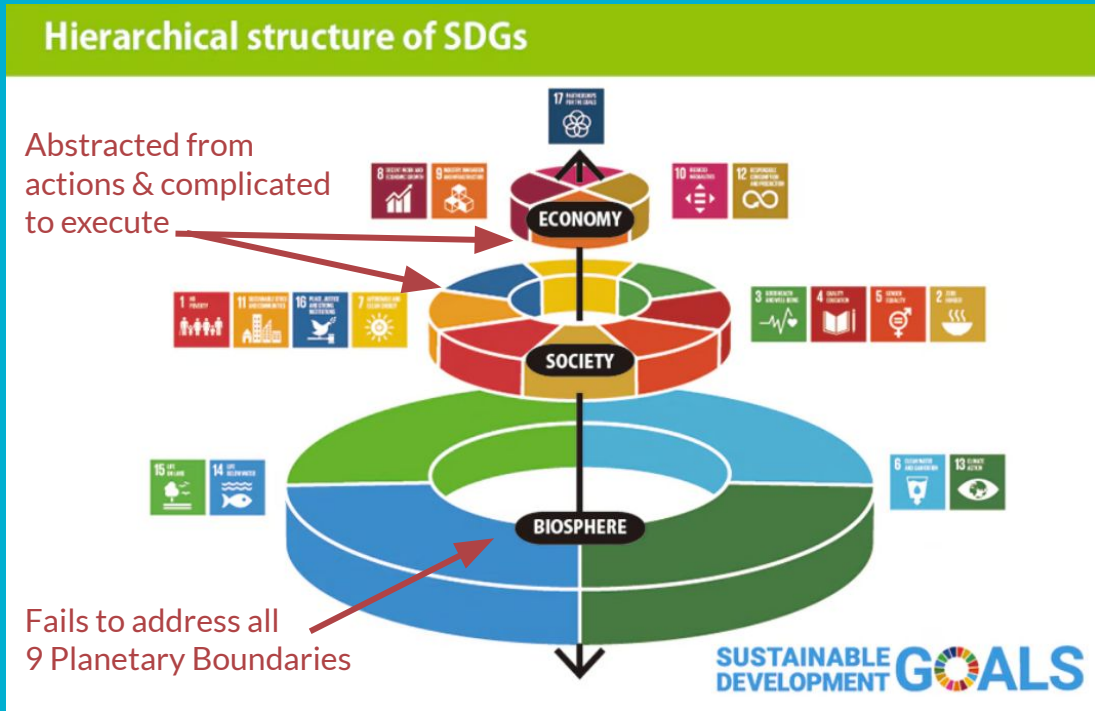

→ ESG is forecast to become a \$28.36 trillion industry in 2024 and it too is insufficient to meet the meta crisis

THE META CRISIS DEMANDS A NEW FRAMEWORK

Bioregional Belonging Programs
provide a **NEW WAY FORWARD.**

BBP build muscle memory, grow spiritual capacity and rely on actions, not words.

BBP leverage AI & LLM to track, analyze and provide feedback with transformation pathways.
(As opposed to a \$28.36 trillion industry to protect multinational profits.)

PLANETARY BOUNDARIES

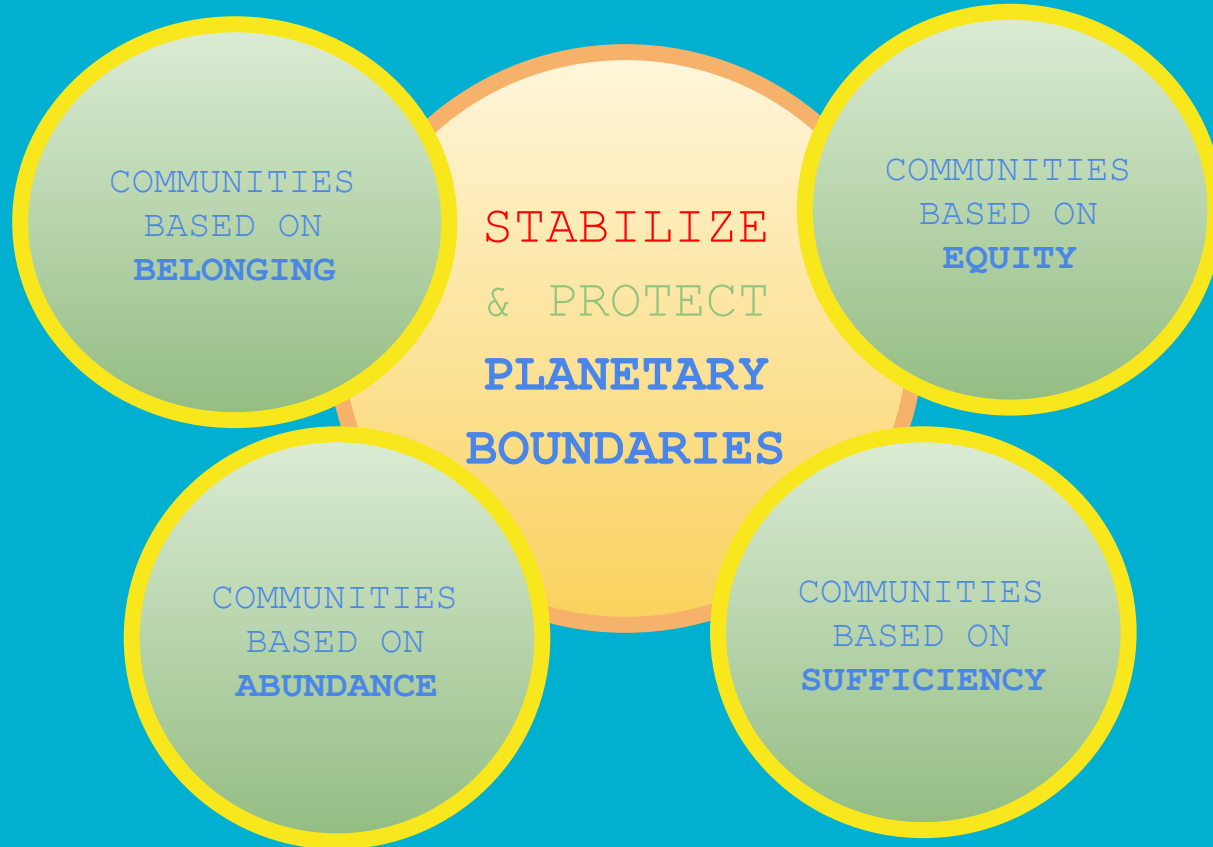

Boundaries provide foundational understanding, remove abstractions.

Boundaries are relevant forever, protected after stabilized.

Build a framework upon boundaries to foster comprehension, action and the **change required for responsible consumption & production.**

PLANET POSITIVE & LIFE AFFIRMING

Bioregional Belonging Programs provide a new model to support grass roots, locally driven change to usher in **A NEW WAY FORWARD** in support of at least seven future generations!
